May 21, 2021

Mr. Tedros Adhanom
Director General
World Health Organization
Geneva, Switzerland

Dear Sir,

Pakistan Medical Association (PMA) appreciates W.H.O's untiring efforts for curtailing Covid-19 throughout the world. Being the specialized agency of the United Nations for health and coordinating responses to health emergencies, W.H.O has contributed a lot to save the human beings' lives globally.

PMA would like to bring into your notice a worldwide issue regarding vaccine of Covid-19. You are well aware of the fact that different countries of the world are using different brands of the vaccine, manufactured in different countries, means people are not using same brands of Covid-19 Vaccine globally. Even knowing the fact, concerned authorities of some countries have approved specific brands mandatory for incoming visitors.

This policy of approving specific brands of Corona Vaccine will have devastating affect over international travelling and trade.

Keeping in view the above facts we request you to play your role and convince such countries to accept all the vaccine brands approved by all other countries for their citizens, otherwise it will create a big problem for the people who wish to go abroad for employment, business, education, medical treatment and for other purposes.

Looking forward for your prompt response.

Sincerely Yours

Dr. S.M.Qaisar Sajjad
Secretary General
Pakistan Medical Association (Centre)

Dr. Salma Aslam Kundi
President
Pakistan Medical Association (Centre)
